PREFACE

This portfolio is prepared as supporting documentation for the internship selection process. It compiles my personal information, educational background, technical skills, and examples of projects resulting from my academic and practical experiences while pursuing my degree in Computer Science at the Faculty of Information Technology, Phetchaburi Rajabhat University.

During my academic journey, I have continuously strived to develop my technical skills in areas such as web development, database management, system analysis, and IoT technology (ESP32). The projects presented in this document, including the E-commerce platform and the Smart Farm system, reflect my dedication, responsibility, and analytical approach to solving problems through programming.

I sincerely hope that this portfolio will demonstrate to the selection committee my potential and readiness for a professional work environment. I welcome any feedback for future improvement and thank you for your time in reviewing this portfolio.

- Soft Skills -

- Problem-Solving
- Team Collaboration
- Time Management & Coordination
- Attention to Detail
- Adaptability & Fast Learner

Personal Information

Name: Supavadee Junyakul

Nickname : Name

Date of Birth : 26 February 2005

Age: 21

Nationality : Thai

Technical Skills

Proficient

Competent

Career Objective

Motivated 4th-year Computer Science student with a background in Electronics Technology, skilled in C/C++ programming, IoT system development, and hardware integration. Seeking a 4-month internship in Software Engineer for Automation or IoT Developer roles. Eager to leverage my expertise in microcontrollers (ESP32) and software development to develop control software for automated equipment and robotics in a leading electronics manufacturing environment.

03
EDUCATION
ประวัติการศึกษา

EDUCATION

ประวัติการศึกษา

2023 - Present

Phetchaburi Rajabhat University

- B.Sc. in Computer Science
- Faculty of Information Technology
- GPA: 3.94 / 4.00

2020 - 2023

Ratchaburi Technical College

- Vocational Certificate in Electronics Technology
- GPA: 3.96 / 4.00

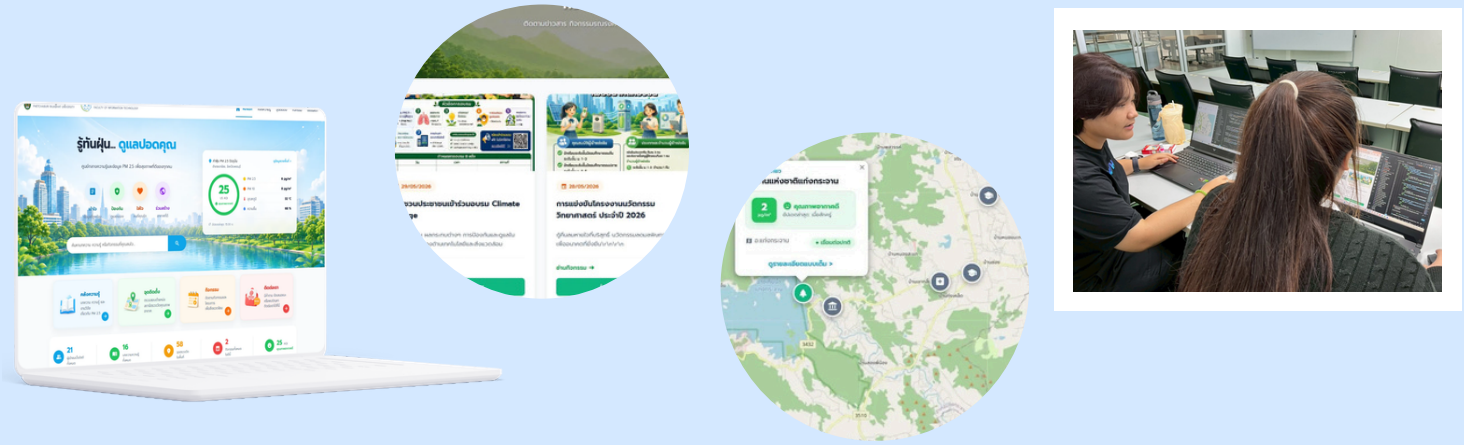

04

EXPERIENCE AND PROJECT

ประสบการณ์การทำงานและโครงการ

Student Web Developer (Part-time job) 2026

Phetchaburi Rajabhat University

PM2.5 Air Quality Monitoring Project

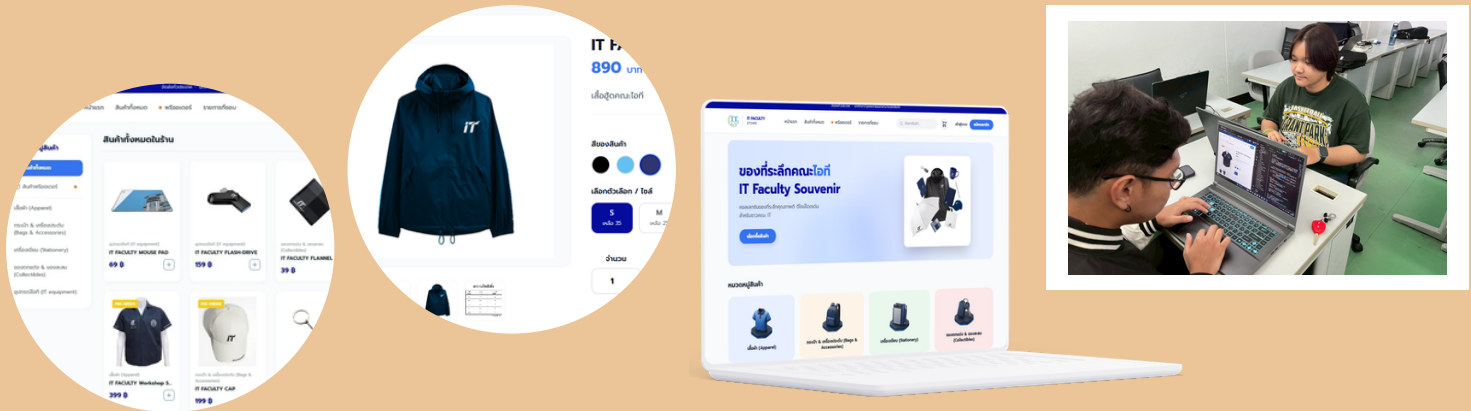

Tech Stack:

- Co-developed a web app tailored for Phetchaburi.
- Designed responsive UI for real-time environmental data visualization.

Co-developers: Aminta Rungruang

Student Web Developer (Part-time job) 2026

Phetchaburi Rajabhat University

IT Faculty E-Commerce Web Application

Tech Stack:

- Developed end-to-end features for product management and purchasing flows.
- Designed responsive UIs and integrated core shopping cart features.

Co-developers: Aukkarachai Samart, Arawan Panthong

Camping Gear E-Commerce Platform (Academic Project)

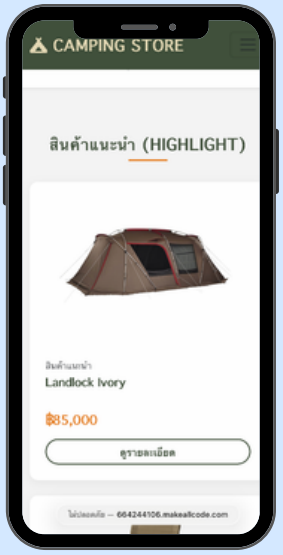

2025

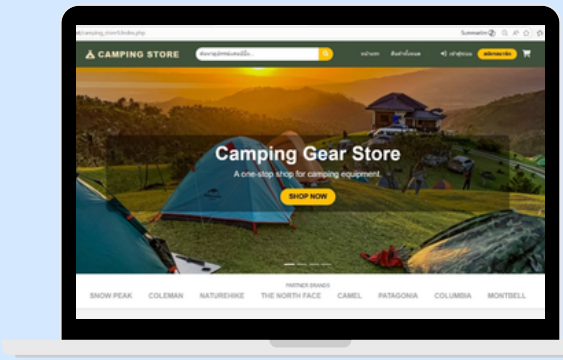

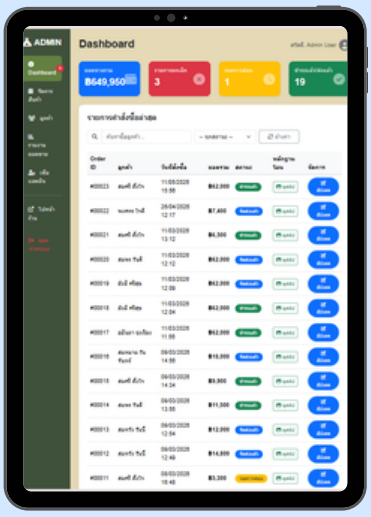

Phetchaburi Rajabhat University

- Co-developed a responsive e-commerce web application for camping gear.
- Integrated an automated payment slip verification system to optimize transaction processing and store management efficiency.
- Implemented secure password recovery via real-time email authentication.

- Tech Stack: php | HTML CSS JS | | MySQL
- Core Skills: Web Design, System Analysis
- Co-developers: Aminta Rungruang, Arawan Panthong, Pongsakorn Budsa

Visit Live Project

Watch Demo Video

Smart Farm Environmental Monitoring SystemAcademic IoT Developer

2025

Phetchaburi Rajabhat University

- Developed an ESP32-based automated irrigation system using Fuzzy Logic to optimize water usage.
- Integrated sensors (DHT22, LDR) for real-time environmental monitoring and data logging.
- Built a fully functional prototype combining hardware and automated control logic.
- Tech Stack: C | C++ | ARDUINO NANO ESP32 | Blynk, Fuzzy Logic, IoT Sensors (DHT22, LDR)

Scan for Full Project Details

Maintenance Technician Internship

2023

B.K.J Advanced Process Co., Ltd.

Maintenance Department

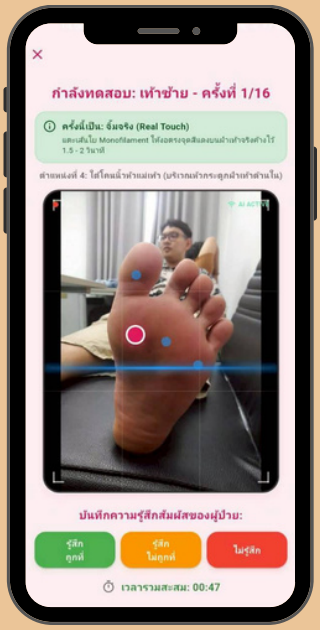

- Maintained and repaired factory tools and electrical systems.
- Performed preventative maintenance to minimize downtime and ensure facility safety.
- Skills: Hardware Troubleshooting, Electrical Maintenance, Preventative Care

05
ACTIVITIES
กิจกรรม

AI-Assisted Diabetic Neuropathy Screening Application (NSC 2026: National Finalist & Grant Recipient)

2026

Silpakorn University, Sanam Chandra Palace Campus

- Received project development funding and advanced to the National Finals as the Western Region representative for the 28th National Software Contest (NSC) 2026.
- Co-developed a telehealth mobile application featuring a hierarchical cloud architecture to support home-based foot screening and community health management.
- Integrated AI vision models (CNN, YOLOv8) for anatomical keypoint detection and utilized a Confusion Matrix algorithm to evaluate sensory assessment reliability.
- Implemented dynamic QR code serialization and automated PDF medical report generation for secure and seamless data handoff to healthcare providers.

- Core Skills: System Architecture, Deep Learning Integration, Healthcare UI/UX
- Co-developers:
  Aminta Rungruang, Aukkarachai Samart

Tech Stack

- Flutter, Dart, Firebase
- Python, OpenCV, Tensorflow

Academic & Competitions

2025

Muban Chombueng Rajabhat University

University Representative | The 46th P.J.N.K. Academic Skills Competition (Certificate of Participation in Programming Category)

Competitive Programming

Tech Stack:

| Data Structures | Algorithms

- Competed against other university students to solve complex logic algorithms.
- Applied logical problem-solving to tackle coding challenges under pressure.

Leadership & Teamwork

2025

Phetchaburi Rajabhat University

Academic Committee Member | Information Technology Student Club

- Organized faculty academic events, facilitating collaboration between students and professors.
- Managed assigned tasks and achieved a 100% on-time success rate.

06
CERTIFICATE
ผลงานและเกียรติบัตรเพิ่มเติม

CERTIFICATE เกียรติบัตร

Work Performance Enhancement with AI

Provided By Thai Mooc

- Learned to leverage AI technologies for data analysis and workflow optimization.
- Gained skills to utilize AI for evaluating system structures and streamlining technical documentation.

Smart Farmer

Provided By Thai Mooc

- Explored modern agricultural concepts and systematic farm management.
- Acquired knowledge of plant requirements and Fuzzy Logic algorithms to design automated irrigation systems.

Technology and learning of digital agriculture

Provided By Thai Mooc

- Studied the application of digital technologies to elevate agricultural data management.
- Learned to integrate environmental sensors and implement real-time data logging systems.

CERTIFICATE เกียรติบัตร

Internet of Things: from idea to product

Provided By Thai Mooc

- Gained a comprehensive understanding of IoT architecture, from conceptual design to product development.
- Developed practical skills in integrating microcontrollers (ESP32) with IoT software platforms.

Creating a Basic Web Page with HTML and CSS

Provided By Thai Mooc

- Built a strong foundation in website structuring and responsive web design.
- Acquired frontend development skills to create visually appealing and user-friendly interfaces.

CEFR B1 Online Training Program

Provided By PBRU Language Center

- Successfully achieved the CEFR B1 (Intermediate) level in English language proficiency.
- Equipped with the ability to comprehend technical documentation and research programming solutions effectively.
